VISION

- Become a global leader in diversified industries, recognized for integrity, innovation, and exceptional service.
- Expand reach and impact, setting the benchmark for quality and reliability in all divisions.
- Foster strong partnerships and embrace sustainable practices.
- Contribute positively to communities and create lasting value for stakeholders.

SHIP BROKERAGE

Right Ways International serves as the Sales Agent for GMS, the world's largest cash buyer of ships. For many consecutive years, we have been the market leaders in terms of the number of vessels and tonnage sold for recycling in Pakistan. Among our achievements is the Cruise Ship sale, the largest cruise ship for recycling in Pakistan's history, cementing our leadership in the industry.

- **Diverse Vessel Types:** We have handled the sale of various types of vessels for recycling, including Bulk Carriers, Tankers, Container Vessels, Off Shore Units and others.
- **Large-Scale Operations:** Our company has successfully sold over 260 ships, totaling approximately 4 million metric tons.
- **Environmental Commitment:** We adhere to stringent environmental and safety standards, contributing to sustainable practices within the ship recycling industry.
- **Global Reach:** Our reputation extends internationally, making us a trusted partner for cash buyers looking for reliable recycling solutions.

METAL INDENTING

Right Ways International serves as a leading Indenting House, specializing in the trade of Ferrous and Non-Ferrous Metals. Our role is crucial in connecting global sellers with buyers in Pakistan, ensuring efficient and reliable supply chains for the recycling industry.

- **Specialization in Metals:** Focus on both Ferrous and Non-Ferrous Metals, catering to diverse industrial needs.
- **Global Network:** Connect international Sellers with Pakistani buyers, facilitating smooth trade and logistics.
- **Targeted Services:** Address the specific needs of Melting and Re-Rolling partners, ensuring the availability of high-quality scrap materials.
- **Efficient Supply Chain:** Streamline the import process to provide consistent and reliable material supply for recycling operations.
- **Market Expertise:** Leverage in-depth knowledge of the metals market to deliver tailored solutions and maintain strong industry relationships.
